Table 1: Care provided in households that need it, ages 15+

| Need | Outcome | Men | Women |
|---|---|---|---|
| Child under six | Childcare, minutes per day | 37.9 | 124.1 |
| Child under six | Any childcare on diary day | 46.7% | 82.0% |
| Child under six | Minutes among those who provide childcare | 81.2 | 151.4 |
| Child under six | Women's share of household childcare | | 80.5% |
| Child under six | Women's share of all childcare minutes | | 78.4% |
| Member needs special care | Dependent-adult care, minutes per day | 15.6 | 37.1 |
| Member needs special care | Any dependent-adult care on diary day | 16.5% | 37.5% |
| Member needs special care | Minutes among those who provide adult care | 94.4 | 98.9 |
| Member needs special care | Women's share of household adult care | | 75.8% |
| Member needs special care | Women's share of all adult-care minutes | | 73.0% |
| Member needs special care | Women's share of household Division 4 care | | 77.1% |
| No member needs special care | Dependent-adult care, minutes per day | 0.0 | 0.0 |

*Notes:* Survey-weighted. Persons aged 15+, excluding probable care recipients for person-level rows. Household share: ratio of women's to all members' minutes in households with positive care of that type, averaged with household weights. Aggregate share: women's minutes over all minutes. Division 4: all unpaid caregiving for household members (ICATUS 4xx).
